

[Rosemount 3051S Pressure Transmitter](#)

With the Rosemount 3051S Series of Instrumentation, you can optimize your operation in four critical areas. Learn more today!

The Rosemount 3051S Series of Instrumentation provides accurate and reliable measurements every time so you can reduce maintenance, outages, process variability, and achieve faster startups

- Reference Accuracy: 0.025% of Span
- Long-term Stability: 15 years
- Limited Warranty: 15 years
- Range down: 200:1
- Installed Total Performance: 0.1% of span
- Advanced Diagnostics with SIL 2/3 Safety Certification

Specifications

Measurement Type	Differential, gage, absolute, and multivariable pressure
Output	HART®, <i>Wireless</i> HART™, FOUNDATION™ fieldbus
Reference Accuracy	±0.025% of span
Total Performance	±0.1% of span
Range down	200:1
Long Term Stability	15-year stability
Warranty	15-year limited warranty
